

**2007 Guide to Trees, Greens
& Holiday Floral Products**

Christmas in the Loudoun Valleys

Would you like to experience and enjoy more of Loudoun County and its towns and villages?

Loudoun is a diverse destination that offers a variety of activities and events including outdoor recreation and nature-based activities, heritage sites, great shopping and dining, cultural arts, wineries, and wonderful festivals and events, just to name a few.

The Loudoun Convention & Visitors Association (LCVA) is your resource for information on all these activities. In addition, the LCVA can assist you with planning meetings, company picnics, sports tournaments, weddings, and family celebrations. Both visitors and residents can enjoy our hospitality and our services. Contact us today for a free copy of the Official Loudoun County Visitors Guide and the Shopping & Dining Guide to find out what there is to see and do here, and ask us how we can assist you with your meeting and event planning.

Discover the Best of Virginia. Rediscover Yourself.™

or 866-771-7697 ext. 11

**What do you do
with your fresh
cut tree once
you get home?**

If you are not ready to set up your Christmas tree, it should be stored in water, out of the sun and wind. When you are ready to bring the tree indoors, make a fresh cut to remove about 1" from the base of the trunk before putting it in a stand. The stand should have adequate water holding capacity. As a rule, stands should hold 1 quart of water per inch of stem diameter.

Keep your displayed tree away from heat (fireplaces, heaters, direct sunlight). Lowering the room temperature will slow the drying process, resulting in less water consumption each day. Check the stand daily to make sure the water level does not go below the base of the tree. Do not use additives to the water - clean water is all that is needed to maintain freshness. Some flame retardants can damage needles and actually increase the rate of moisture loss.

Use of miniature lights will produce much less heat and reduce drying of the tree. If worn, replace with a new set. Do not overload circuits. Always turn off the lights when leaving the house or going to bed.

After Christmas, or when the tree gets dry, remove it from the house. Recycle your tree! Residents receiving curbside recycling should contact their HOA, town office, or private waste collector for Christmas tree recycling information. There are also a number of collection sites throughout Loudoun County. Contact the Loudoun County Office of Solid Waste Management at 703.771.5318 or visit www.loudoun.gov/oswm for more information. Never burn any part of a Christmas tree in a wood stove or fireplace.

Mill Road); 2 miles to right on Route
861 (Reservoir Road); fourth drive on
the left.

Renewable Resource

It takes 4 to 15 years to grow a tree
to a height ready for sale. During
this time, the tree creates a thriving
habitat for small ground creatures,
birds, and insects. Christmas
tree farmers are responsible land
stewards, planting 2-3 seedlings for
each tree harvested.

Grandale Farm LLC

14001 Harpers Ferry Road
Purcellville VA 20132

Poinsettia Care Tips

Poinsettias are one of the longest-lasting blooming plants available to consumers. Choose a plant with small, tightly clustered buds in the center. Look for crisp, bright, undamaged foliage. To keep your poinsettia blooming, water thoroughly when soil is dry to the touch, discard excess water in the saucer. To prolong color, keep a temperature range of 60 degrees for night and 72 degrees for day. High humidity is preferable. Keep your plant away from hot or cold drafts, and protect from cold winds.

19

Abernethy and Spencer Greenhouses

Loudoun County's Oldest Greenhouse

18035 Lincoln Road

Buy a Tree— Support Local Farmers

Christmas tree farming is a major agricultural industry in Virginia with more than a million trees harvested and sold annually from hundreds of farms throughout the state.

This holiday season, think GREEN.

The biggest shopping day of the holiday season, the day after Thanksgiving, or “Black Friday,” receives a great deal of attention. This holiday season, why not think GREEN instead. The Green Friday concept encourages consumers to buy locally-produced Christmas goods and products for holiday gift giving. Green Friday supports local farmers and artisans and keeps agriculture as an integral part of Loudoun County life. Look for additional information on Loudoun County’s Green Friday activities in the local media and at **www.LoudounFarms.org**.

Christmas in the Loudoun Valleys

Loudoun County, one of the fastest growing counties in the United States, faces the challenge of balancing development while maintaining its agricultural resources. In this context the Department of Economic Development's rural team supports both existing and new rural businesses, providing assistance to both traditional and alternative farming enterprises, as well as value-added farm product development and farm business planning. The Department also produces several brochures listing farms that sell direct to consumers: *Loudoun Wine Trail*, *Spring Farm Tour*, *Loudoun Farms Product Guide*, *Roadside Stand/PYO Guide*, *Farm Color Tour*, and *Christmas in the Loudoun Valleys*.

For more information on business assistance, or to request a brochure, please call 703.777.0426, or visit our website **www.LoudounFarms.org**.
